

1. Create a Kanban Board to Visualize the Tasks.
- Create Columns for To Do, In-Progress and Done.
 - Add Atleast 5 Sample Tasks
 - Move the Tasks across the Columns to Simulate the Workflow.

Step 1: Open Jira

Open Jira in your browser and **log in** with your Jira account.

After login, you will reach the Jira home page.

Step 2: Open Spaces

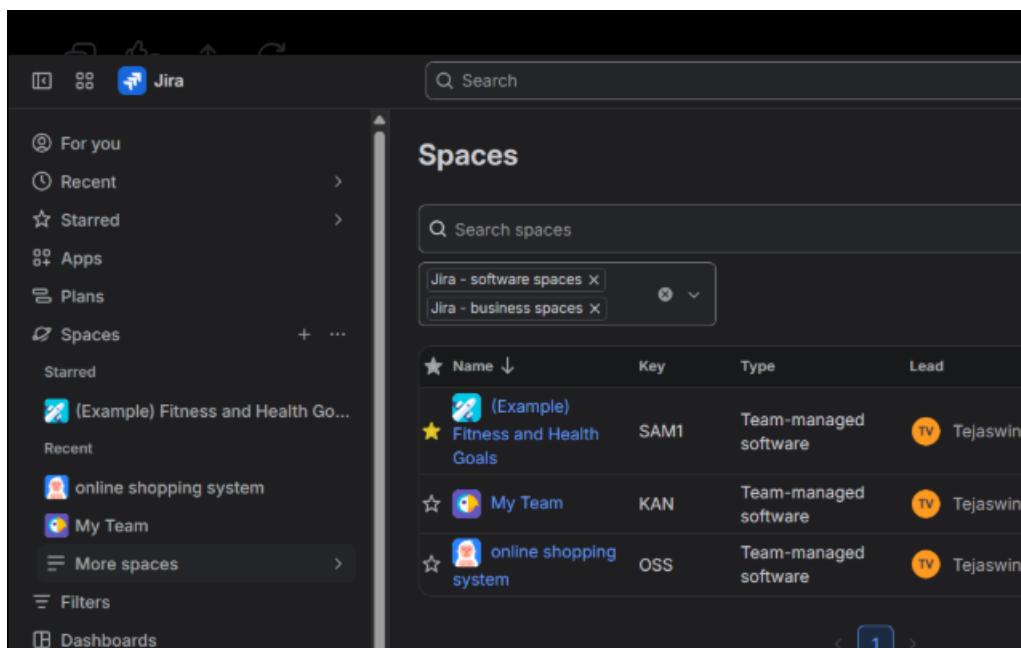

From the left side menu, click:

Spaces

You will see the Spaces page.

Click:

Create space

Step 3: Select Kanban Template

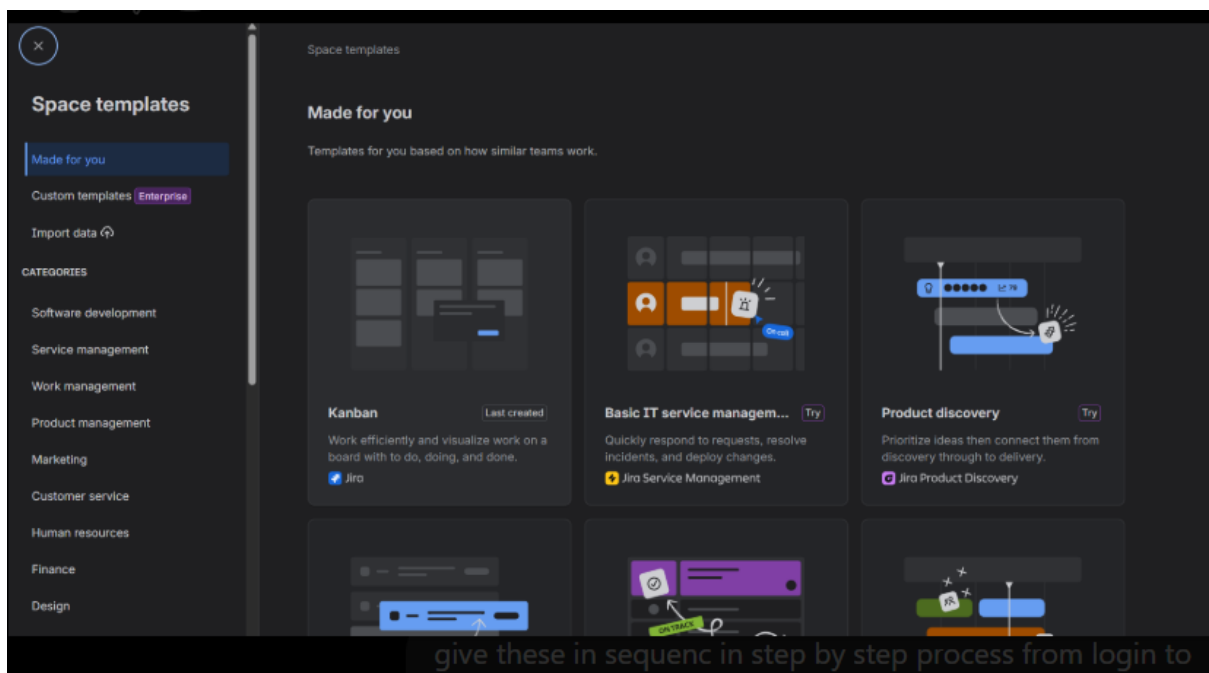

You will see **Space templates**.

Find the **Kanban** template.

Click **Kanban**.

You will see the Kanban information page like your screenshot.

Click **Use template** / **Create space**.

Step 6:Use The Template

Click on the template

Kanban

Kanban (the Japanese word for "visual signal") is all about helping teams visualize their work, limit work currently in progress, and maximize efficiency. Use the Kanban template to increase planning flexibility, reduce bottlenecks and promote transparency throughout the development cycle.

Track work using a simple board

Work items are represented visually on your kanban board, allowing teams to track the status of work at any time. The columns on your board represent each step in your team's workflow, from to-do to done.

[Learn more about kanban boards](#)

Use the board to limit work in progress

Set the maximum amount of work that can exist in each status with work in progress (WIP) limits. By limiting work in progress, you can improve team focus, and better identify inefficiencies and bottlenecks.

[Learn more about WIP limits](#)

Continuously improve with agile reports

One of the key tenets of kanban is optimizing

Product

 Jira

Recommended for

Teams that control work volume from a backlog

DevOps teams that want to connect work across their to

Work types

-  Epic
-  Story
-  Bug
-  Task
-  Sub-task

Workflow

To Do

In Progress

Done

Step 5: Name Your Space

Enter:

Name:

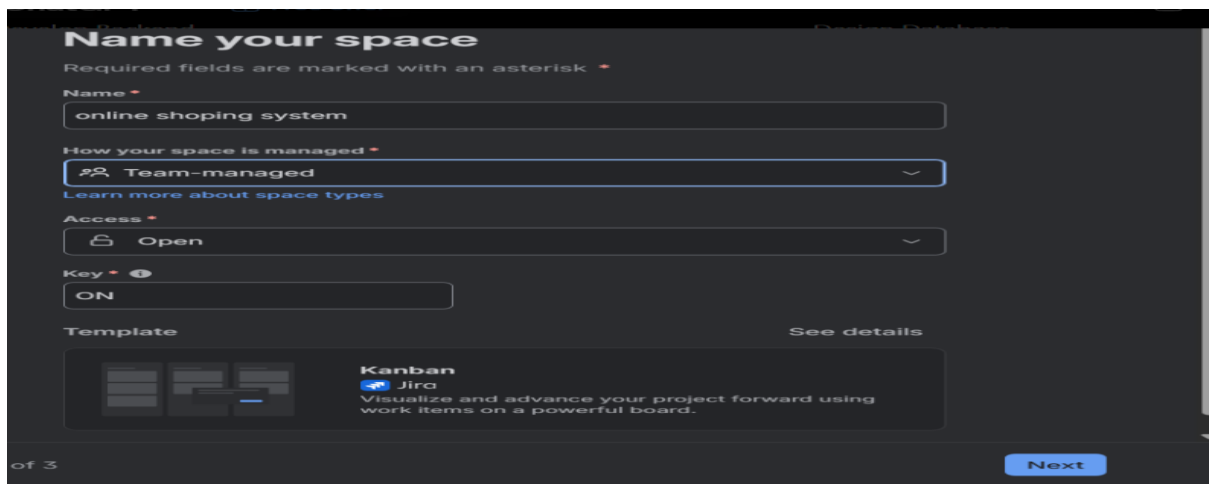

Online Shopping System

How your space is managed

Select:

Team-managed

Then click:

The screenshot shows the 'Name your space' configuration page in Jira. The page has a dark theme. At the top, it says 'Name your space' in large white text. Below this, a note states 'Required fields are marked with an asterisk *'. The form contains several fields: 'Name' with the value 'online shoping system', 'How your space is managed' with a dropdown menu showing 'Team-managed', 'Access' with a dropdown menu showing 'Open', and 'Key' with the value 'ON'. There is a 'Template' section at the bottom with a preview of a Kanban board and a description: 'Kanban Jira Visualize and advance your project forward using work items on a powerful board.' A 'See details' link is next to the template. At the bottom right, there is a blue 'Next' button. The page number 'of 3' is visible at the bottom left.

Step 6: Check the Columns

Your Kanban template should give you columns similar to:

To Do | In Progress | Done

If Jira gives you extra columns such as:

Backlog | Selected for Development | In Progress | In Review | Done

don't worry.

For this assignment, your final board should have:

Step 7: Create the 5 Tasks

Click **Create** or **+ Create**.

Create these tasks **one by one**:

Task 1

Requirement Analysis

Task 2

Design Database

Task 3

Design UI

Task 4

Develop Backend

Task 5

Testing

Step 8:give templates into to do,in process and done list
